A4 PRINTS   COLOUR/MONO   1-10+ USERS

The C710. Superior colour and mono printing, fast and effortlessly.

Super fast performance. High definition output. Outstanding reliability. The new C710 provides it all.

With its solid, smart and simple design, this compact printer is perfect for the larger workgroup seeking quality colour or mono printing without effort. With print speeds of 30ppm colour and 32ppm mono waiting times are reduced, keeping productivity high and the award-winning single-pass digital LED technology, provides smooth, trouble-free operation. The C710 is easy to use, especially with the enhanced LCD display panel which keeps the user in complete control. Consumables are simple to change and with large capacity toners and paper trays, user intervention is kept to a minimum. The printer can handle a variety of media sizes, formats and weights, while a range of network utilities will protect data and prevent unauthorised use.

Speed, security and superior printing – the new C710 has it all.

QUICK OVERVIEW

1-10+ USERS

PERFORMANCE
Super fast colour and mono printing with outstanding print quality

FLEXIBILITY
Handles various media formats and paper weights up to 220gsm

USABILITY
Easy to control, print and change consumables

SECURITY AND CONTROL
Network utilities can protect data and prevent unauthorised usage

COMPACT SIZE
Up to half the size of other large workgroup A4 colour printers

Security and Control

Protects data. Prevents excess use

- Safeguard confidentiality and prevent unauthorised usage

- Easy to monitor and control printing costs

- Print Control imposes rules on how the printer is used

- Secure Erase protects documents from being accessed and re-printed by safely erasing files on the Hard Disk Drive

- Secure Print encrypts files sent via the network ensuring office critical information is kept confidential

Performance

Outstanding speed. Superior quality

- Print speeds of 30ppm colour and 32ppm mono to maximise productivity

- First time to print of up to 9 seconds for quick output turnaround

- High capacity toner cartridges - more printed pages, less user intervention

Flexibility

Prints perfectly on a variety of media

- Prints on a range of media from 64gsm up to 220gsm

- Handles banners up to 1200mm in length

- Duplex (optional on C710n), for double-sided printing

- Extra paper trays for total capacity of 1690 sheets, up to 203gsm
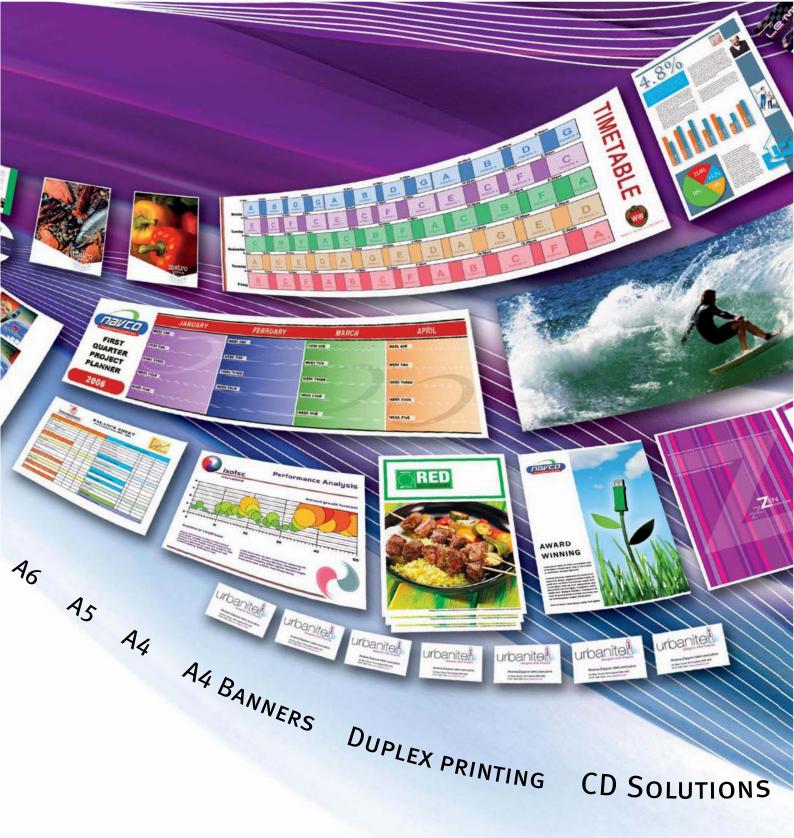

Usability

Simple to work with

- Printer is easy to use by any member of the workgroup

- Enhanced LCD display panel provides user-friendly clear instructions

- Simple easy-to-change consumables

Compact Size

Simple, Solid and Smart compact design

- Quiet and small enough to sit discreetly with in the office environment whilst delivering outstanding performance for large workgroups

CD Solutions

Key Configuration Differences
Four different versions to fit your needs

- All printers have network capability as standard starting with the C710n

- The C710dn comes with the addition of duplex for double-sided printing

- The C710dtn has duplex and an extra 530 sheet paper tray increases paper capacity for the more demanding workgroup

- The C710cdtn features duplex, an extra 530 sheet paper tray and a cabinet for greater flexibility in the office

HIGH DEFINITION COLOR

Technology without equal. Printing without effort

High Definition Color is OKI Printing Solutions' own unique collection of market defining hardware and software technologies. Together, these components deliver unsurpassed colour printing... simply, intelligently, perfectly.

As the specialists in business printing solutions and leaders in colour printing, we can be trusted to deliver. Great colour starts with OKI Printing Solutions.

UTILITY SUITE

Unlock printing power and maintain business control

The C710 Utility Suite is a unique set of software designed to help users get the most out of their printer. Below are three of the advanced utilities that deliver increased printing power and management control. For a complete list of utilities refer to the product specification table overleaf.

Template Manager

This powerful software program makes life easier in the office by providing ready-made templates for many kinds of stationery and promotional materials such as labels, business cards, banners & CD/DVD labelling. The unique editing suite allows the freedom to create new templates for specific media or vertical industry specific documents and to make it even easier the software automatically matches the document with the correct media. These templates can also be shared across networks for design/brand consistency.

Print Control

Print Control is a job accounting and reporting program which enables network administrators to track printer usage and control costs. This easy to use utility captures details such as number of printouts, whether colour or mono, the paper type and size and the consumables used. Printer access can be restricted to authorised individuals or groups, and pre-defined cost limits can be set, denying further access once these print limits have been reached.

PrintSuperVision

PrintSuperVision allows IT support staff to monitor all business printers within the firewall, regardless of printer make. Access is given to networked printer data for monitoring, reporting and managing networked printers. The user interface to this system is web browser based, making it simple to use.

THE C710 FEATURES AT A GLANCE

	C710n	C710dn	C710dtn	C710cdtn
Colour print speed (A4)	30ppm			
Mono print speed (A4)	32ppm

[1] Check local OKI Printing Solutions website for latest driver releases & OS Compatibility. [2] Includes all consumables. * Hard Disk Drive required.

Consumables Information: For the protection of your printer, and in order to ensure that you benefit from its full functionality, this model has been designed to operate only with genuine OKI Printing Solutions toner cartridges. These can be identified by the Oki trademark. Any other toner cartridge may not operate at all, even if it is described as "compatible", and if it does work, your printer's performance and print quality may be degraded.
