

# Digital Mosaic 22M

The AOPEN Digital Mosaic 22M is a range of thin touch and non-touch Full HD VA displays, with an optimal viewing angle for both portrait and landscape mode.

The Digital Mosaic range has optional proprietary high precision recessed & non-recessed wall mount solutions, ideal for creating videowalls in a variety of shapes and sizes.

- Easy installation: no need for an enclosure or kiosk, the Digital Mosaic can simply be mounted on or in the wall using various wall mount solutions
- Aesthetics: slim form factor
- True flat surface: easy to clean
- Ideal viewing angle for both portrait and landscape mode
