

Digital Mosaic 22MT

The 22MT is a thin touch Full HD VA display with an optimal viewing angle for both portrait and landscape mode. Designed for use in public environments the display is equipped with IP65-grade front panels, making them dust-and waterproof. AOPEN Digital Mosaic range has optional propriety high recessed & non-recessed wall mount solution.

- Easy installation: no need for an enclosure or kiosk, can simply be mounted on or in the wall using various wall mount solutions
- Robust VA panel: dust and water proof (IP65)
- Aesthetics: slim form factor
- True flat surface: easy to clean
- Ideal viewing angle for both portrait and landscape mode
